The Skoch awards celebrate human excellence and agents of change in Indian society. The awards are based on the philosophy of spearheading positive socio-economic changes through recognizing persons who have contributed immensely to transforming society and governance by displaying exemplary leadership. They are the highest independently instituted civilian honors in India. Since 2003, when these were instituted, the Skoch awards have become the only independent benchmark of best practices in India in the fields of governance, finance, banking, technology, corporate citizenship, economics and inclusive growth. The awards salute individuals, highlight projects and focus on institutions that go the extra mile to make India a better nation.
